

The gear

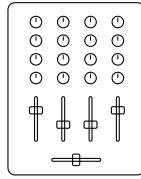

PLAYERS

CDJ-3000X CHOICE 1

CDJ-3000 CHOICE 2

CDJ-2000NXS2 CHOICE 3

At least 2 players of the same model, connected via PRO DJ LINK.

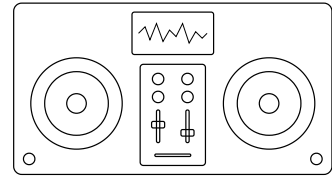

MIXER

DJM-A9 CHOICE 1

DJM-V10 CHOICE 2

DJM-900NXS2 CHOICE 3

Placed in the middle, between the two players.

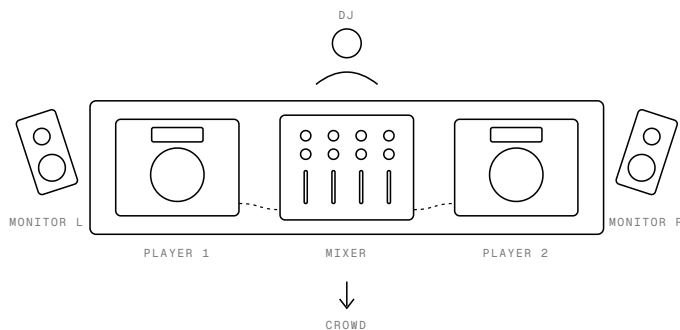

STANDALONE

XDJ-AZ

Accepted instead of the players and mixer setup.

The booth

- 01 Mixer in the middle, one player on each side.
- 02 Stable table, no vibration, at waist height (about 1 m).
- 03 One monitor on each side of the booth, facing the DJ.
- 04 Space next to the gear for headphones and USB keys.

Monitors and sound

- 01 2 active monitors, placed at ear level.
- 02 Monitors connected to the mixer's Booth output, so their volume is set from the booth.
- 03 A sound engineer reachable for the whole set.
- 04 A 10 minute line check before the set when possible.

USB keys and formats

- 01 I play from USB keys prepared with rekordbox.
- 02 Players connected via PRO DJ LINK with network cables, to share music between players.
- 03 Up to date firmware on the players and the mixer.
- 04 Player USB ports accessible and working.
